Residence: Spain, Catalonia

ABOUT ME

I'm Ian Aviñó, a digital artist focused on 3D modeling and game development. I build my own models and turn them into playable demos and small games.

I love inventing fictional worlds and bringing them to life, from the first sketch to something you can explore.

WORK EXPERIENCE

2024 - 2025 : Development of the video game *Murder by Death*, Cocodrolo Games Studio

Worked on 3D object modeling and environment building, and contributed to the game's narrative.

2024: Demo of the game *Ghosts' Whispers*, La Salle

Built the full demo using GDevelop's visual scripting, programming all the mechanics and integrating the narrative and art assets provided by the team.

2023 - 2024: Illustration of a children's story, La Salle

I illustrated a children's story titled *Buba's Adventures* for the project Cuentos para todos.

2022 - 2025 (summers): Receptionist, Hotel Panorama

Experience in handling check-ins and check-outs, managing reservations and providing customer service.

2026: Demo of the game *Land Between Rivers*

Exploration and puzzle game demo. I developed the concept and narrative, modeled and textured the assets, and programmed all the mechanics.

EDUCATION

September 2025 - Present: iDesigner

Video game programming with Unity and Unreal Engine 5

2022 - Present: La Salle, Barcelona

Bachelor's Degree in Digital Arts

2020 - 2022: Sant Ermengol, Andorra

Humanities Baccalaureate
